

INTRODUCTION

I was invited to participate in a discussion on the pre-Adamite time on the radio (www.spirituallyraw.com).

Time slot = 40 minutes.

(Thursday, 14 April 2011, at 10:00 EST = 16:00 SAST)

THEME

Was there life on earth before the creation week of Adam and Eve?

SOURCE REFERENCE

For this purpose, I will use primarily 2 sources:

1st SOURCE. Used by more than a $\frac{1}{3}$ of the current world population (UN reports and Bible Societies' statistics), as it is also supported by secular history, namely **"THE BIBLE"**.

2nd SOURCE. Used by everyone as tangible evidence. Exhibited in museums around the globe, and supported by geology, archaeology, and anthropology, namely **"SCIENCE"**.
